PROFESSIONAL SUMMARY

Senior Product Manager with 5+ years building and scaling consumer-facing, mobile-first fintech products across payments, digital banking, and cross-border remittance, serving SMEs and individual customers across Africa, the UK, and the US. Proven owner of the full product funnel end to end: onboarding and KYC, cross-border transfers and FX, multicurrency accounts, cards, and activation/retention, inside regulated environments with compliance and risk in the room. Technically fluent with hands-on experience on API integrations, system architecture decisions, instrumentation, and data-driven product development. Adept at translating ambiguous business goals into clear product strategy and shipping measurable outcomes that move onboarding completion, transaction reliability, and revenue.

CORE COMPETENCIES

Consumer Funnel & Onboarding Ownership • KYC/KYB & Identity Verification • Cross-Border Payments & FX • Product Strategy & Roadmapping • Agile and Scrum Delivery • Go-to-Market Execution

Cross-Functional Team Leadership • Product Analytics & SQL • API Integration & Tech Fluency • Fintech, Crypto & Payments • AI and ML Product Development • Regulated / Multi-Market Delivery

PROFESSIONAL EXPERIENCE

Senior Product Manager *Jan 2026 – Aug 2026*

Bitstac | Canada (Remote)

- Owned the consumer transaction funnel end to end, driving the build of a scalable trade finance and blockchain-enabled payment infrastructure for SMEs and importers between China and Africa, scaling the platform to **over $45M in monthly transaction volume**.
- Defined and owned the full product vision and roadmap, leading discovery, PRD creation, and engineering sprints through to go-live with early enterprise clients.
- Integrated stablecoin payment rails supporting USDT and USDC to enable fast, low-cost cross-border settlements, leveraging blockchain technology to reduce transaction friction for importers and SMEs.
- Applied a strong understanding of crypto and blockchain fundamentals, including wallet architecture, on-chain transaction flows, and stablecoin settlement mechanics, to shape product decisions and guide engineering trade-offs.
- Designed and implemented a tiered KYB (Know Your Business) compliance flow with integrated fraud detection, AML screening, and cybersecurity checkpoints, significantly reducing onboarding risk.
- Worked closely with engineering on system architecture decisions, API design, and technical trade-offs to ensure platform reliability and scalability.
- Built strategic partnerships with African SME communities and trade networks to accelerate product adoption and validate market-fit assumptions.

Lead Product Manager *Mar 2024 – Dec 2025*

Tiaago Technology LLC | US / Colombia (Remote)

- Spearheaded product strategy and roadmap for an AI-powered B2B recruitment suite, managing the full lifecycle from ideation through launch.
- Led development of automated resume screening and AI-driven skill assessment features, reducing recruiter time to shortlist by approximately 40%.
- Architected and delivered an enterprise-grade sourcing capability by integrating the platform into a dataset of 850 million talent profiles, enabling recruiters to surface qualified candidates at scale.
- Led end-to-end implementation of Pipeline as a Service, designing the framework that allowed clients to embed and manage structured hiring pipelines directly within the platform.
- Partnered with engineering on ML model integration, data pipeline architecture, and API development to deliver technically sound and scalable AI features.
- Designed and launched flexible subscription and usage-based pricing models, increasing ARR and improving revenue predictability.
- Established strategic integrations and partnerships across HR and EdTech communities, accelerating product adoption and expanding the partner ecosystem.

Product Manager *Mar 2023 – Feb 2024*

Vurt | Fintech

- Led feature development for cross-border settlement and multi-currency exchange systems, enabling seamless transactions across African and global markets.
- Integrated real-time transaction processing APIs, significantly reducing settlement delays and improving payment reliability for end users.
- Strengthened KYC and fraud detection workflows, achieving a 30% reduction in transaction-related fraud within 6 months of rollout.
- Conducted user research and synthesised data analytics to identify friction points, directly informing product iterations that improved usability and retention.

Product Manager *Sep 2022 – Feb 2023*
TellerOne | Fintech

- Launched TellerOne's inaugural mobile and web platforms from scratch, driving 2x growth in daily active users within 3 months of release.
- Ran product discovery sessions with SME customers to surface high-impact, market-fit features aligned to real user pain points.
- Improved payment success rates by 25% through a combination of backend optimisations and targeted UX redesigns.
- Contributed directly to the company's successful $250,000 seed funding round by demonstrating product traction and a clear growth roadmap.

Product Manager (Volunteer) *Sep 2021 – Mar 2022*
TalentSync | SaaS Marketplace

- Designed a three-tier subscription model (Free, Basic, Premium) that increased user conversion by 45%, validating the freemium-to-paid funnel hypothesis.
- Successfully onboarded over 10,000 talents onto the platform, building a robust and verified talent supply that strengthened recruiter confidence and marketplace liquidity.
- Built a Talent Vetting Engine to improve recruiter trust and hiring efficiency, reducing time to hire for platform users.
- Established employer partnerships to expand access to verified job opportunities, growing supply-side inventory on the platform.

Associate Product Manager *Aug 2020 – Dec 2021*
Myqpay | Fintech

- Supported design and rollout of a secure payment gateway for freelancers, helping facilitate over $300K in transactions during early-stage operations.
- Streamlined merchant onboarding and transaction flows through iterative user feedback analysis, reducing drop-off at critical funnel stages.
- Improved platform reliability by identifying and prioritising backend issues, reducing downtime and increasing transaction success rates.

LEADERSHIP & COMMUNITY

Operational Lead *2022 – Present*
Campus Tech Founders

- Facilitated ecosystem partnerships with Infinix, Cloudplexo, and other tech stakeholders to deliver value to student innovators across Africa.
- Organised startup, innovation, and tech events on African campuses, building a vibrant community of early-stage founders.
- Mentored 1,000+ student innovators through structured capacity-building programmes focused on product thinking and entrepreneurship.

EDUCATION

Master of Business Administration (MBA), In Progress — Miva Open University (Expected 2027)
Bachelor of Science (B.Sc.) in Industrial Chemistry — Obafemi Awolowo University, Ile-Ife, Nigeria (Graduated 2020)

PRODUCT STACK & TOOLS

Product & Project: Jira · Linear · ClickUp · Notion · Trello · Asana · Miro
Design & Prototyping: Figma · Lovable · Bolt

Analytics: Google Analytics · Mixpanel · SQL
CRM & Automation: HubSpot · Airtable · Zapier · Slack

KEY ACHIEVEMENTS

- Scaled Bitstac's blockchain-enabled cross-border trade platform to **over $45M in monthly transaction volume**, with USDT/USDC stablecoin settlement.
- Integrated into a dataset of 850M talent profiles and launched Pipeline as a Service at Tiaago, setting a new benchmark for AI-powered recruiting at scale.
- Onboarded 10,000+ talents onto TalentSync, establishing strong marketplace liquidity and recruiter trust.
- Delivered 4+ market-ready products across Fintech, HR Tech, and SaaS from zero to one.
- Achieved a 30% reduction in fraud at Vurt through enhanced KYC and detection workflows.
- Drove 2x growth in daily active users for TellerOne within 3 months of platform launch.
- Increased user conversion by 45% via a data-informed freemium pricing model at TalentSync.
- Supported a $250K seed funding round by demonstrating early traction and product-market fit.
- Mentored 1,000+ student innovators across Africa through Campus Tech Founders.
